## Federal Communications Commission

### ***INTRODUCTION***

This report presents data on ownership interests in commercial broadcast stations as of October 1, 2015.<sup>1</sup> The report contains: (1) an overview of the major findings from the 2015 broadcast ownership data presented by gender, ethnicity, and race; (2) a comparison of 2015 and 2013 data in key categories for full power commercial television, Class A television, low-power television (LPTV), commercial AM radio, and commercial FM radio stations; and (3) more detailed information provided both in the attached tables in the appendix and in accompanying spreadsheets released in conjunction with this report.<sup>2</sup>

The Federal Communications Commission biennial commercial broadcast ownership reporting form, FCC Form 323, is designed to obtain comprehensive data on racial and ethnic minority and female broadcast ownership—statistically valid broadcast ownership data that can be compiled and aggregated and used as a source for further analysis. The Commission requires all full power commercial television and radio broadcast stations and low power and Class A television stations to file biennial ownership reports using the same “as of” date (October 1) for reported data during each filing cycle.<sup>3</sup> A station’s

---

<sup>1</sup> Previous versions of this report were released in various dockets related to the Commission’s media ownership rules and diversity initiatives. See *2014 Quadrennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, MB Docket Nos. 14-50, 09-182, and 07-294, Report on Ownership of Commercial Broadcast Stations, 29 FCC Rcd 7835 (MB 2014) (*Second 323 Report*) (This was the second 323 report issued by the Media Bureau and presented data for the 2013 filing cycle.); *2010 Quadrennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, MB Docket Nos. 09-182 and 07-294, Report on Ownership of Commercial Broadcast Stations, 27 FCC Rcd 13814 (MB 2012) (*First 323 Report*) (This was the first report on Form 323 data issued by the Media Bureau and presented data for the 2009 and 2011 filing cycles.). While the data in this report may be particularly relevant to Commission policymaking in those areas, this data may also be useful in a wide variety of additional proceedings. Accordingly, the Commission will no longer release these reports in a particular docket.

<sup>2</sup> The accompanying spreadsheets present ownership characteristics for each broadcast station, identified by its Facility ID. In a separate spreadsheet, we also provide the current call sign for each broadcast station. We note that the data contained in each Form 323 ownership report are publicly available and may be downloaded from the Commission’s Consolidated Database (CDBS) and then aggregated, cross-referenced, and searched electronically. See [http://licensing.fcc.gov/prod/cdbs/pubacc/prod/cdbs\\_pa.htm](http://licensing.fcc.gov/prod/cdbs/pubacc/prod/cdbs_pa.htm).

<sup>3</sup> In 2016, the Commission revised the Ownership Report for Noncommercial Broadcast Stations (Form 323-E) to conform noncommercial educational (NCE) stations’ reporting requirements more closely to the requirements for commercial stations. See *Promoting Diversification of Ownership in the Broadcasting Services et al.*, Report and Order, Second Report and Order, and Order on Reconsideration, 31 FCC Rcd 398, 420-28, paras. 43-55 (2016) (*2016 323 and 323-E Order*); see also *Promoting Diversification of Ownership in the Broadcasting Services et al.*, Order on Reconsideration, FCC 17-42 (Apr. 21, 2017) (*2017 323-E Order on Reconsideration*) (further revising NCE filing requirements). Pursuant to the *2016 323 and 323-E Order*, NCE stations must submit biennial ownership reports pursuant to the same schedule applicable to commercial stations, including the October 1 “as of” date. See *2016 323 and 323-E Order*, 31 FCC Rcd at 432-33, paras. 64-67. Such filings will begin during the 2017 biennial filing window. See *id.* at 429, 432, paras. 58, 66; *Promoting Diversification of Ownership in the Broadcasting Services*, Order, 31 FCC Rcd 13263, 13263-64, paras. 1-2 (MB 2016) (suspending rolling filing deadlines for NCE stations and instead requiring all such stations to file on or before December 1, 2017).

In the *2016 323 Order*, the Commission noted that certain commenters had acknowledged the steps already taken to improve the quality of the broadcast ownership data, but had urged the Commission to do more to make the broadcast ownership data more usable for the benefit of studies and analysis. See *2016 323 Order*, 31 FCC Rcd at 407-08, para. 16. The Commission, in the *2016 323 Order*, made a number of significant changes to Form 323 and 323-E to reduce the filing burdens on broadcasters, streamline the process, and improve data quality. See *id.* at 429-39, paras. 59-84. These changes included extending the biennial filing deadline, reducing the number of filings required, improving the reporting of other broadcast and newspaper interests, and other modifications. See *id.* As

(continued...)

## Federal Communications Commission

report must identify all of its attributable interest holders.<sup>4</sup> Form 323 also requires all attributable interest holders to obtain and provide FCC Registration Numbers for the Commission Registration System (CORES FRNs) to facilitate the tracking and cross-referencing of reported ownership interests.<sup>5</sup> These requirements have been in place since 2009.

This report presents the results of the fourth data collection using the current version of Form 323 and reflecting attributable ownership interests as of October 1, 2015.<sup>6</sup> On November 14, 2012, the Media Bureau released the first electronic analysis of commercial broadcast ownership data submitted pursuant to the revised biennial reporting requirements for 2009 and 2011.<sup>7</sup> A subsequent report, released by the Bureau on June 27, 2014, contained an analysis of the commercial broadcast ownership data submitted during the 2013 filing cycle.<sup>8</sup> The data contained in these reports are “snapshots” of the status of minority and female ownership in the broadcast industry and are part of a planned series of biennial “snapshots” that can be used for trend analysis.<sup>9</sup> These reports provide detailed information by race, ethnicity, and gender concerning ownership of commercial television, radio, Class A television, and LPTV stations. The Media Bureau compiled the 2015 biennial ownership filings using both algorithmic analysis and manual adjustments to obtain the best picture of ownership status and trends that the data would permit.

Users of the information in this report should bear in mind that control of a licensee in the usual parlance of our cases and procedures indicates either *de jure* or *de facto* control by identifiable individuals or

(Continued from previous page) \_\_\_\_\_

noted in the *2016 323 Order*, we believe these changes will improve the usability of the submitted ownership data for both Commission staff and outside analysts. *See id.* at 436-39, paras. 77-84 (responding to comments on the *Second 323 Report* asking the Commission to make the data in future reports easier to use); *see also 2014 Quadrennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996 et al.*, Further Notice of Proposed Rulemaking and Report and Order, 29 FCC Rcd 4371, 4481-87, paras. 249-62 (2014) (noting Commission efforts to address shortcomings in the Form 323 data previously identified by commenters).

<sup>4</sup> Attribution of an ownership interest to an individual or entity is governed by the Commission’s rules and, in some instances, requires a detailed case-by-case determination. It represents the Commission’s best judgment concerning when an interest is sufficient to confer on the owner a potential degree of influence over a licensee that should be cognizable for purposes of applying the Commission’s broadcast ownership rules. *See* the notes to 47 CFR § 73.3555.

<sup>5</sup> During the 2009, 2011, 2013, and 2015 biennial filing periods, commercial filers were permitted to obtain a Special Use FRN (SUFRN) for individuals (not entities) reported on the Form 323 in lieu of a CORES FRN. The *2016 323 and 323-E Order* eliminated the ability of commercial filers to provide SUFRNs for reported individuals except in very limited circumstances. *See 2016 323 and 323-E Order*, 31 FCC Rcd at 412-20, 428-29, paras. 25-42, 56-59; *see also 2017 323-E Order on Reconsideration* at 4-9, paras. 7-14 (expanding the option for NCE filers to use SUFRNs). For future reporting cycles, individuals reported on Form 323 will be permitted to provide either a CORES FRN or a Restricted Use FRN (RUFN), both of which can be obtained through CORES, on Form 323. *See 2016 323 and 323-E Order*, 31 FCC Rcd at 410-17, paras. 25-36. More detail concerning these requirements is provided in the *2016 323 and 323-E Order*. *See id.* at 412-20, 428-29, paras. 25-42, 56-58.

<sup>6</sup> The information in this report meets the Commission’s information quality guidelines. *See Implementation of Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility and Integrity of Information Pursuant to Section 515 of Public Law No. 105-554*, Information Quality Guidelines, 17 FCC Rcd 19890 (2002).

<sup>7</sup> *See First 323 Report*, 27 FCC Rcd at 13815, para. 2.

<sup>8</sup> *See Second 323 Report*, 29 FCC Rcd at 7836, para. 2.

<sup>9</sup> The reports collectively contain more than 100 pages of summary schedules and dozens of spreadsheets of underlying data reflecting the Media Bureau’s analysis of the Form 323 data, which can be further studied and manipulated by researchers and interested parties. Future, similar reports are contemplated reflecting additional biennial reporting periods.

## Federal Communications Commission

groups. Because the Bureau reports interests here that are held collectively by certain classes of individuals who may have no connection with one another beyond their shared classification by gender, ethnicity, or race, the fact that a particular class of individuals may have a majority of the voting stock or partnership interests in a licensee does not necessarily indicate control by that class of individuals. Rather, absent a single majority interest holder, control of these stations would be determined on a *de facto* basis, which requires access to facts not reported on Form 323. Accordingly, this report refers to these collective interests as “majority” interests, rather than “controlling” interests. Similarly, of course, where no majority interest is reported, a *de facto* analysis would be required to determine control.<sup>10</sup> However, when a single individual, of whatever classification, holds a majority voting interest in a licensee, this would indicate *de jure* control by that individual and is considered a controlling interest.

This document also reports the attributable positional interests<sup>11</sup> of individuals by their gender, ethnic, and racial classifications. These individuals may exercise control of a licensee where no single individual holds a majority of the voting interests in that licensee and are more likely to do so where no attributable voting interests are identified, but this cannot be inferred from the Form 323 data alone. As with all *de facto* control determinations, the specific facts of each case would be required to determine actual control. Finally, our classification of a licensee in this report as having “No Majority Interest” does not necessarily mean that no classification of persons in this report has a majority interest in the station, only that these facts cannot be determined from the reported Form 323 data in the absence of additional information.

### **SUMMARY OF RESULTS**

#### Overview of 2015 Broadcast Ownership Data by Gender, Ethnicity, and Race<sup>12</sup>

The following summary uses only data from the 2015 FCC Form 323 biennial reports and thus represents information current as of October 1, 2015 (the most current biennial information available). A more detailed comparison between the 2015 data and 2013 data is presented separately below.

#### *Broadcast ownership and gender.*<sup>13</sup>

- **Women** collectively or individually held a majority of the voting interests<sup>14</sup> in 1,024 broadcast stations, consisting of 102 **full power commercial television** stations (7.4 percent) of 1,385

---

<sup>10</sup> Because ownership of less than 5 percent of the outstanding voting stock of a corporation is not attributable, it is common for portions of a licensee’s voting stock not to be reported on Form 323, particularly where the licensee is a public, widely held entity. In some cases, no attributable voting stock may be reported. *See* 47 CFR § 73.3555, Note 2a.

<sup>11</sup> Officers and directors of broadcast licensee entities, for example, are attributable based on their positions. *See id.* Note 2g. The relevant question on Form 323 identifies the following additional categories of positional interests: General Partner; Limited Partner; LC/LLC/PLLC Member/Owner/Stockholder; Attributable Creditor; and Attributable Investor. The question also provides an “Other” option for users to specify an attribution category not contained in our list. All stations reporting persons identified by any one of these categories are included in Tables 2 and 3.

<sup>12</sup> The gender, ethnicity and race categories identified in Form 323 follow the guidance provided by the Office of Management and Budget. *See* Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity, 62 Fed. Reg. 58, 782 (Oct. 30, 1997).

<sup>13</sup> Our analysis of the Form 323 data does not identify as majority-owned combinations in those situations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of either the same ethnicity or race together exceed 50 percent (e.g., a station where Hispanic/Latino females hold 40 percent of the vote and Hispanic/Latino males hold 40 percent of the vote). In such cases the stations are identified as no majority interest in Table 1.

<sup>14</sup> Voting interests include, for example, voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company.

## Federal Communications Commission

stations;<sup>15</sup> 37 **Class A television** stations (9.3 percent) of 396 stations; 125 **low power television** stations (11.0 percent) of 1,137 stations; 314 **commercial AM radio** stations (8.9 percent) of 3,509 stations; and 446 **commercial FM radio** stations (8.1 percent) of 5,492 stations.

- **Men** collectively or individually held a majority of the voting interests in 8,556 broadcast stations, consisting of 833 **full power commercial television** stations (60.1 percent) of 1,385 stations; 293 **Class A television** stations (74.0 percent) of 396 stations; 837 **low power television** stations (73.6 percent) of 1,137 stations; 2,549 **commercial AM radio** stations (72.6 percent) of 3,509 stations; and 4,044 **commercial FM radio** stations (73.6 percent) of 5,492 stations.

### *Broadcast ownership and ethnicity.*

- **Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 671 broadcast stations, consisting of 62 **full power commercial television** stations (4.5 percent) of 1,385 stations; 53 **Class A television** stations (13.4 percent) of 396 stations; 152 **low power television** stations (13.4 percent) of 1,137 stations; 176 **commercial AM radio** stations (5.0 percent) of 3,509 stations; and 228 **commercial FM radio** stations (4.2 percent) of 5,492 stations.
- **Non-Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 9,021 broadcast stations, consisting of 891 **full power commercial television** stations (64.3 percent) of 1,385 stations; 280 **Class A television** stations (70.7 percent) of 396 stations; 807 **low power television** stations (71.0 percent) of 1,137 stations; 2,730 **commercial AM radio** stations (77.8 percent) of 3,509 stations; and 4,313 **FM commercial radio** stations (78.5 percent) of 5,492 stations.

### *Broadcast ownership and race.*

- **Racial minorities** collectively or individually held a majority of the voting interests in 402 broadcast stations, consisting of 36 **full power commercial television** stations (2.6 percent) of 1,385 stations; 7 **Class A television** stations (1.8 percent) of 396 stations; 27 **low power television** stations (2.4 percent) of 1,137 stations; 204 **commercial AM radio** stations (5.8 percent) of 3,509 stations; and 128 **commercial FM radio** stations (2.3 percent) of 5,492 stations. Ownership of majority interests by **racial group** was as follows:
  - **American Indian/Alaska Natives** owned 40 broadcast stations.
  - **Asians** owned 152 broadcast stations.
  - **Black/African Americans** owned 180 broadcast stations.
  - **Native Hawaiian/Other Pacific Islanders** owned 20 broadcast stations.
  - Persons of **two or more races** owned 10 broadcast stations.<sup>16</sup>

---

<sup>15</sup> Percentages of stations held are calculated on the basis of the number of stations filing usable data relevant for each category of ownership, not on the basis of the total number of licensed stations. Stations that did not file ownership reports, stations that filed insufficient data, as well as stations that are not included in the specific ownership category are not included in these calculations. We are in the process of implementing changes to the FCC Forms 323 and 323-E to ensure that they reflect revisions adopted by the Commission. The revised forms will be used by licensees beginning with the 2017 biennial filing window and should simplify the filing process for licensees, which we anticipate will increase the response rate. Further, we anticipate that the revised forms will also improve the quality of submitted ownership data and facilitate the Commission's analysis of that data.

<sup>16</sup> In March 2013, the Commission revised Form 323 and its Instructions to remove the "Two or more races" category from the Gender/Ethnicity/Race question at the request of the Office of Management and Budget (OMB) to comply with current Federal standards for the collection of racial and ethnicity data. See Revised Supporting Statement (continued...)

## Federal Communications Commission

- **Whites** collectively or individually held a majority of the voting interests in 9,515 broadcast stations, consisting of 1,030 **full power commercial television** stations (74.4 percent) of 1,385 stations; 336 **Class A television** stations (84.8 percent) of 396 stations; 983 **low power television** stations (86.5 percent) of 1,137 stations; 2,722 **commercial AM radio** stations (77.6 percent) of 3,509 stations; and 4,444 **commercial FM radio** stations (80.9 percent) of 5,492 stations.

### Comparison of 2015 and 2013 Data for Key Categories

This section presents a summary of FCC Form 323 data for 2015 by category of ownership (majority voting ownership interest, attributable ownership interest, and type of attributable interest) and gender, ethnicity, and race. Results are reported by service, broken down into full power commercial broadcast television stations, Class A television stations, low power television stations, commercial AM radio stations, and commercial FM radio stations.<sup>17</sup> For purposes of comparison, we also include in the summary information from our 2013 biennial ownership data.<sup>18</sup>

The information is provided in Appendix C in a series of tables presenting the sources of ownership attribution.<sup>19</sup> The first set of tables in Appendix C identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50 percent (i.e., a majority ownership voting interest which includes voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company). The second set of tables identifies the number of stations that have at least one person with an attributable interest in the relevant race, ethnicity, or gender category. All sources of attribution are included in this set of tables.<sup>20</sup> The third, and final, set of tables identifies the number of stations with persons who are attributable by virtue of a positional interest, persons who hold voting interests of at least 5, 10, or 25 percent, or persons who hold a single majority voting interest. This set of tables counts instances where an individual's interests meets one of these criteria. Detailed information, including market size data, is contained in the tables in Appendix C and in the accompanying Excel spreadsheets released in conjunction with this report. Some of the information is presented in the bullets below.

(Continued from previous page) \_\_\_\_\_

for Information Collection 3060-0010 (May 2013), available at [http://www.reginfo.gov/public/do/PRAViewDocument?ref\\_nbr=201302-3060-019](http://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201302-3060-019). Filers are now able to select more than one race category for an individual. For purposes of determining ownership interests by racial group and for consistency over the four reporting periods, this report continues to identify an individual as “two or more races” if more than one race category is selected for that individual.

<sup>17</sup> Noncommercial broadcast stations are not included in this report because, for the 2015 reporting cycle, they were not required to file the same information as commercial stations or in the same filing cycle. Noncommercial broadcast stations were required to file Form 323-E biennially, and the version of that form used at the time of reporting did not collect information on gender, ethnicity, or race. As noted above, the Commission recently revised Form 323-E to conform more closely reporting for noncommercial and commercial broadcast stations for future reporting periods, including the collection of information about race, gender, and ethnicity of existing, reportable attributable interest holders. See *2016 323 Order* at 420-28, paras. 43-55; see also *2017 323-E Order on Reconsideration* at 4-9, paras. 7-14 (further revising NCE filing requirements).

<sup>18</sup> The previous version of this report, presenting data for the 2013 filing cycle, can be found at <https://www.fcc.gov/document/report-ownership-commercial-broadcast-stations-0>.

<sup>19</sup> In addition, Appendix A provides a glossary of terms, and Appendix B contains explanatory notes regarding the 2015 data.

<sup>20</sup> All sources of attributable interests are included in this second set of tables, even though the categories are not specifically identified. As described in footnote 9 above, all Form 323 data are publicly available to researchers as well as the general public so that any aspect of ownership by women and minorities can be examined by the public.

Federal Communications Commission

**A. Full Power Commercial Television**

**1. Full Power Commercial Television Majority Ownership Interest - Table A(1a)-A(1c)**

**a. Gender**

- Females owned 102 (7.4 percent) of the 1,385 full power commercial television stations in 2015 and 87 (6.3 percent) of the 1,386 full power commercial television stations in 2013.
- Males owned 833 stations (60.1 percent) in 2015 and 1,005 stations (72.5 percent) in 2013.
- 14 (1.0 percent) stations were jointly female/male owned in 2015 and 23 (1.7 percent) stations were jointly female/male owned in 2013.
- Stations with no majority interest by gender accounted for 436 stations (31.5 percent) in 2015 and 271 stations (19.6 percent) in 2013.

**b. Ethnicity**

- Hispanic/Latino persons owned 62 full power commercial television stations (4.5 percent) in 2015 and 42 full power commercial television stations (3.0 percent) in 2013.
- 25 of the 62 Hispanic/Latino-owned stations in 2015 were in a top-50 Designated Market Area (DMA), 6 stations were in DMA markets 51-100, and 31 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 891 stations (64.3 percent) in 2015 and 1,052 stations (75.9 percent) in 2013.
- Stations with no majority interest by ethnicity accounted for 432 stations (31.2 percent) in 2015 and 292 stations (21.1 percent) in 2013.

## Federal Communications Commission

### c. *Race*

- Racial minorities owned 36 full power commercial television stations (2.6 percent) in 2015 and 41 full power television stations (3.0 percent) in 2013.<sup>21</sup>
- 12 of the 36 minority-owned stations in 2015 were in a top-50 DMA, 12 stations were in DMA markets 51-100, and 12 stations were outside the top 100 markets.
- American Indian or Alaska Natives owned 12 stations (0.9 percent) in 2015 and 11 stations (0.8 percent) in 2013.
- Asians owned 10 stations (0.7 percent) in 2015 and 19 stations (1.4 percent) in 2013.<sup>22</sup>
- Black or African Americans owned 12 stations (0.9 percent) in 2015 and 9 stations (0.6 percent) in 2013.
- Native Hawaiian or Other Pacific Islanders owned 1 station in 2015 and in 2013.
- Persons of two or more races owned 1 station in 2015 and in 2013.
- Whites owned 1,030 stations (74.4 percent) in 2015 and 1,070 stations (77.2 percent) in 2013.
- Stations with no majority interest by race accounted for 319 stations (23.0 percent) in 2015 and 275 stations (19.8 percent) in 2013.

### 2. Full Power Commercial Television Attributable Ownership Interest - Table A(2a)-A(2c)

- Females held attributable interests in 84.3 percent of full power commercial television stations in 2015 and 81.0 percent of stations in 2013.
- Males held attributable interests in 98.7 percent of stations in 2015 and 99.4 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests in 32.6 percent of stations in 2015 and 26.0 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests in 97.7 percent of stations in 2015 and 97.7 percent of stations in 2013.
- Racial minorities' attributable interests in stations ranged from 2.3 percent to 29.3 percent of stations in 2015 and from 1.2 percent to 17.3 percent of stations in 2013.

---

<sup>21</sup> Pursuant to a November 2012 transaction relating to the bankruptcy of Young Broadcasting, Inc., an Asian individual temporarily held an indirect majority voting interest in the licensees of Young's 14 full power TV stations. *See, e.g.*, FCC File No. BTCCDT-20120809ACR (transfer of control application for Young Broadcasting of Davenport, Inc.); FCC File Nos. BOA-20131112BDB/BGI/CFQ, BOA-20131220 GMS/GQN/GTP/GVL/FWP/GYZ/HCI/HEU (2013 biennial ownership reports filed in connection with Young Broadcasting of Davenport, Inc.). As a result, the *Second 323 Report*, which provided a snapshot of ownership interests as of October 1, 2013, categorized the 14 stations as minority-held. In November 2013, control of the licensees was transferred to Media General, Inc., a publicly-traded company with no majority voting interest holder. *See, e.g.*, FCC File No. BTCCDT-20130703AEI (transfer of control application for Young Broadcasting of Davenport, Inc.). Following the transfer, the Asian individual indirectly held less than a majority voting interest in Media General, Inc. Accordingly, dissolution of the temporary ownership arrangement related to this series of transactions resulted in a decrease of 14 stations in the total racial minority-owned station data from 2013 to 2015.

<sup>22</sup> *See* footnote 21 *supra* which explains why the number of Asian-owned stations decreased in 2015.

## Federal Communications Commission

- Whites held attributable interests in 98.5 percent of stations in 2015 and 99.1 percent of stations in 2013.

### 3. Full Power Commercial Television Attributable Ownership By Type - Table A(3a)-(3c)

#### a. Positional Interest

- Females held attributable interests due to their positional interests in 85.6 percent of full power commercial television stations in 2015 and 81.7 percent of stations in 2013.
- Males held attributable interests due to their positional interests in 97.2 percent of stations in 2015 and 96.1 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests due to their positional interests in 36.9 percent of stations in 2015 and 29.7 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 98.9 percent of stations in 2015 and 98.7 percent of stations in 2013.
- Racial minorities' attributable interests due to their positional interests ranged from 2.7 percent to 35.1 percent of stations in 2015 and from 0.6 percent to 19.6 percent of stations in 2013.
- Whites held attributable interests due to their positional interests in 99.2 percent of stations in 2015 and 99.5 percent of stations in 2013.

#### b. Single Majority Voting Interest

- Females were single majority voting interest holders in 13.7 percent of full power commercial television stations in 2015 and 11.5 percent of stations in 2013.
- Males were single majority voting interest holders in 86.3 percent of stations in 2015 and 88.5 percent of stations in 2013.
- Hispanic/Latino persons were single majority voting interest holders in 11.9 percent of stations in 2015 and 5.9 percent of stations in 2013.
- Non-Hispanic/Latino persons were single majority voting interest holders in 88.1 percent of stations in 2015 and 94.1 percent of stations in 2013.
- Racial minorities were single majority voting interest holders in 5.8 percent of stations in 2015 and 6.5 percent of stations in 2013.
- Whites were single majority voting interest holders in 94.2 percent of stations in 2015 and 93.5 percent of stations in 2013.

## B. Class A Television

### 1. Class A Television Majority Ownership Interest - Table B(1a)-B(1c)

#### a. Gender

- Females owned 37 stations (9.3 percent) of the 396 Class A television stations in 2015 and 30 stations (7.6 percent) of the 393 Class A television stations in 2013.
- Males owned 293 stations (74.0 percent) in 2015 and 319 stations (81.2 percent) in 2013.
- 3 stations (0.8 percent) were jointly female/male owned in 2015 and 2 stations (0.5 percent) were jointly female/male owned in 2013.
- Stations with no majority interest by gender accounted for 63 stations (15.9 percent) in 2015 and 42 stations (10.7 percent) in 2013.

## Federal Communications Commission

### *b. Ethnicity*

- Hispanic/Latino persons owned 53 Class A television stations (13.4 percent) in 2015 and 29 stations (7.4 percent) in 2013.
- 25 of the 53 Hispanic/Latino-owned stations in 2015 were in a top-50 DMA, 9 stations were in DMA markets 51-100, and 19 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 280 stations (70.7 percent) in 2015 and 303 stations (77.1 percent) in 2013.
- Stations with no majority interest by ethnicity accounted for 63 stations (15.9 percent) in 2015 and 61 stations (15.5 percent) in 2013.

### *c. Race*

- Racial minorities owned 7 Class A television stations (1.8 percent) in 2015 and 23 stations (5.9 percent) in 2013.
- 5 of the 7 minority-owned stations in 2015 were in a top-50 DMA, 2 stations were in DMA markets 51-100, and no stations were outside the top 100 markets.
- American Indian or Alaska Natives owned no stations in 2015 and 2 stations (0.5 percent) in 2013.
- Asians owned 5 stations (1.3 percent) in 2015 and 6 stations (1.5 percent) in 2013.
- Black or African Americans owned 1 station (0.3 percent) in 2015 and 8 stations (2.0 percent) in 2013.
- Native Hawaiian or Other Pacific Islanders owned no stations in 2015 or in 2013.
- Persons of two or more races owned 1 station (0.3 percent) in 2015 and 7 stations (1.8 percent) in 2013.
- Whites owned 336 stations (84.8 percent) in 2015 and 326 stations (83.0 percent) in 2013.
- Stations with no majority interest by race accounted for 53 stations (13.4 percent) in 2015 and 44 stations (11.2 percent) in 2013.

## **2. Class A Television Attributable Ownership Interest – Table B(2a)-B(2c)**

- Females held attributable interests in 71.8 percent of Class A television stations in 2015 and 60.8 percent of stations in 2013.
- Males held attributable interests in 98.2 percent of stations in 2015 and 97.4 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests in 30.0 percent of stations in 2015 and 30.5 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests in 95.6 percent of stations in 2015 and 95.0 percent of stations in 2013.
- Racial minorities' attributable interests in stations ranged from 0 percent to 13.3 percent of stations in 2015 and from 0 percent to 15.3 percent of stations in 2013.
- Whites held attributable interests in 97.9 percent of stations in 2015 and 94.5 percent of stations in 2013.

## Federal Communications Commission

### 3. Class A Television Attributable Ownership By Type - Table B(3a)-B(3c)

#### a. *Positional Interest*

- Females held attributable interests due to their positional interests in 73.9 percent of Class A television stations in 2015 and 65.8 percent of stations in 2013.
- Males held attributable interests due to their positional interests in 92.7 percent of stations in 2015 and 89.4 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests due to their positional interests in 31.6 percent of stations in 2015 and 35.2 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 94.9 percent of stations in 2015 and 97.0 percent of stations in 2013
- Racial minorities' attributable interests due to their positional interests ranged from 0 percent to 19.2 percent of stations in 2015 and from 0 percent to 15.5 percent of stations in 2013.
- Whites held attributable interests due to their positional interests in 98.3 percent of stations in 2015 and 95.5 percent of stations in 2013.

#### b. *Single Majority Voting Interest*

- Females were single majority voting interest holders in 10.8 percent of Class A television stations in 2015 and 12.1 percent of stations in 2013.
- Males were single majority voting interest holders in 89.2 percent of stations in 2015 and 87.9 percent of stations in 2013.
- Hispanic/Latino persons were single majority voting interest holders in 31.3 percent of stations in 2015 and 15.5 percent of stations in 2013.
- Non-Hispanic/Latino persons were single majority voting interest holders in 68.7 percent of stations in 2015 and 84.5 percent of stations in 2013.
- Racial minorities were single majority voting interest holders in 4.2 percent of stations in 2015 and 12.0 percent of stations in 2013.
- Whites were single majority voting interest holders in 95.8 percent of stations in 2015 and 88.0 percent of stations in 2013.

### C. Low Power Television

#### 1. Low Power Television Majority Ownership Interest - Table C(1a)-C(1c)

##### a. *Gender*

- Females owned 125 (11.0 percent) of the 1,137 low power television (LPTV) stations in 2015 and 187 (14.9 percent) of the 1,258 low power television stations in 2013.
- Males owned 837 stations (73.6 percent) in 2015 and 927 stations (73.7 percent) in 2013.
- 8 stations (0.7 percent) were jointly female/male owned in 2015 and 5 stations (0.4 percent) were jointly female/male owned in 2013.
- Stations with no majority interest by gender accounted for 167 stations (14.7 percent) in 2015 and 139 stations (11.0 percent) in 2013.

##### b. *Ethnicity*

- Hispanic/Latino persons owned 152 LPTV stations (13.4 percent) in 2015 and 126 stations (10.0 percent) in 2013.

## Federal Communications Commission

- 66 of the 152 Hispanic/Latino-owned stations in 2015 were in a top-50 DMA market, 14 stations were in DMA markets 51-100, and 72 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons owned 807 stations (71.0 percent) in 2015 and 968 stations (76.9 percent) in 2013.
- Stations with no majority interest by ethnicity accounted for 178 stations (15.7 percent) in 2015 and 164 stations (13.0 percent) in 2013.

### *c. Race*

- Racial minorities owned 27 LPTV stations (2.4 percent) in 2015 and 41 stations (3.3 percent) in 2013.
- 9 of the 27 minority-owned stations in 2015 were in a top-50 DMA market, 4 stations were in DMA markets 51-100, and 14 stations were outside the top 100 markets.
- American Indian or Alaska Natives owned 1 station (0.1 percent) in 2015 and 1 station (0.1 percent) in 2013.
- Asians owned 13 stations (1.1 percent) in 2015 and 14 stations (1.1 percent) in 2013.
- Black or African Americans owned 8 stations (0.7 percent) in 2015 and 16 stations (1.3 percent) in 2013.
- Native Hawaiian or Other Pacific Islanders owned no stations in 2015 or in 2013.
- Persons of two or more races owned 5 stations (0.4 percent) in 2015 and 10 stations (0.8 percent) in 2013.
- Whites owned 983 stations (86.5 percent) in 2015 and 1,060 stations (84.3 percent) in 2013.
- Stations with no majority interest by race accounted for 127 stations (11.2 percent) in 2015 and 157 stations (12.5 percent) in 2013.

## **2. Low Power Television Attributable Ownership Interest - Table C(2a)-C(2c)**

- Females held attributable interests in 59.2 percent of LPTV stations in 2015 and 59.2 percent of stations in 2013.
- Males held attributable interests in 95.0 percent of stations in 2015 and 95.6 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests in 22.9 percent of stations in 2015 and 24.3 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests in 90.1 percent of stations in 2015 and 91.6 percent of stations in 2013.
- Racial minorities' attributable interests in stations ranged from 0.1 percent to 11.4 percent of stations in 2015 and from less than 0.3 percent to 13.2 percent of stations in 2013.
- Whites held attributable interests in 97.1 percent of stations in 2015 and 96.6 percent of stations in 2013.

## **3. Low Power Television Attributable Ownership By Type - Table C(3a)-C(3c)**

### *a. Positional Interest*

- Females held attributable interests due to their positional interests in 59.2 percent of LPTV stations in 2015 and 51.3 percent of stations in 2013.

## Federal Communications Commission

- Males held attributable interests due to their positional interests in 94.5 percent of stations in 2015 and 93.2 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests due to their positional interests in 26.2 percent of stations in 2015 and 25.7 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 95.6 percent of stations in 2015 and 89.9 percent of stations in 2013.
- Racial minorities' attributable interests due to their positional interests ranged from 0 percent to 22.5 percent of stations in 2015 and from 0.2 percent to 8.7 percent of stations in 2013.
- Whites held attributable interests due to their positional interests in 94.2 percent of stations in 2015 and 96.2 percent of stations in 2013.

### *b. Single Majority Voting Interest*

- Females were single majority voting interest holders in 18.7 percent of LPTV stations in 2015 and 26.0 percent of stations in 2013.
- Males were single majority voting interest holders in 81.3 percent of stations in 2015 and 74.0 percent of stations in 2013.
- Hispanic/Latino persons were single majority voting interest holders in 28.3 percent of stations in 2015 and 17.9 percent of stations in 2013.
- Non-Hispanic/Latino persons were single majority voting interest holders in 71.7 percent of stations in 2015 and 82.1 percent of stations in 2013.
- Racial minorities were single majority voting interest holders in 5.6 percent of stations in 2015 and 6.8 percent of stations in 2013.
- Whites were single majority voting interest holders in 94.6 percent of stations in 2015 and 93.2 percent of stations in 2013.

## **D. Commercial AM Radio**

### **1. Commercial AM Radio Majority Ownership Interest - Table D(1a)-D(1c)**

#### *a. Gender*

- Females owned 314 (8.9 percent) of 3,509 commercial AM radio stations in 2015 and 310 (8.3 percent) of 3,689 AM radio stations in 2013.
- Males owned 2,549 stations (72.6 percent) in 2015 and 2,737 stations (73.2 percent) in 2013.
- 51 stations (1.5 percent) were jointly female/male owned in 2015 and 80 stations (2.1 percent) were jointly female/male owned in 2013.
- Stations with no majority interest by gender accounted for 595 stations (17.0 percent) in 2015 and 610 stations (16.3 percent) in 2013.

#### *b. Ethnicity*

- Hispanic/Latino persons owned 176 commercial AM stations (5.0 percent) in 2015 and 194 stations (5.2 percent) in 2013.
- Of 176 Hispanic/Latino-owned stations in 2015, 130 stations were in a top 100 Arbitron metro market, 26 stations were in Arbitron metro markets 101-274, and 20 stations were outside all Arbitron metro markets.

## Federal Communications Commission

- Non-Hispanic/Latino persons owned 2,730 stations (77.8 percent) in 2015 and 2,912 stations (77.9 percent) in 2013.
- Stations with no majority interest by ethnicity accounted for 603 stations (17.2 percent) in 2015 and 631 stations (16.9 percent) in 2013.

### *c. Race*

- Racial minorities owned 204 commercial AM radio stations (5.8 percent) in 2015 and 225 stations (6.0 percent) in 2013.
- Of the 204 minority owned stations in 2015, 126 stations were in a top-100 Arbitron metro market, 36 stations were in Arbitron metro markets 100-274, and 42 stations were outside all Arbitron metro markets.
- American Indians or Alaska Natives owned 6 stations (0.2 percent) in 2015 and 12 stations (0.3 percent) in 2013.
- Asians owned 104 stations (3.0 percent) in 2015 and 104 stations (2.8 percent) in 2013.
- Black or African Americans owned 87 stations (2.5 percent) in 2015 and 93 stations (2.5 percent) in 2013.
- Native Hawaiian or Other Pacific Islanders owned 5 stations (0.1 percent) in 2015 and 9 stations (0.2 percent) in 2013.
- Persons of two or more races owned 2 stations (0.1 percent) in 2015 and 7 stations (0.2 percent) in 2013.
- Whites owned 2,722 stations (77.6 percent) in 2015 and 2,893 stations (77.4 percent) in 2013.
- Stations with no majority interest by race accounted for 583 stations (16.6 percent) in 2015 and 619 stations (16.6 percent) in 2013.

## **2. Commercial AM Radio Attributable Ownership Interest - Table D(2a)-D(2c)**

- Females held attributable interests in 63.1 percent of commercial AM radio stations in 2015 and 61.6 percent of stations in 2013.
- Males held attributable interests in 95.7 percent of stations in 2015 and 96.4 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests in 11.6 percent of stations in 2015 and 9.0 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests in 94.6 percent of stations in 2015 and 94.8 percent of stations in 2013.
- Racial minorities' attributable interests ranged from 0.3 percent to 15.5 percent of stations in 2015 and from 0.6 percent to 17.2 of stations in 2013.
- Whites held attributable interests in 94.3 percent of stations in 2015 and 94.7 percent of stations in 2013.

## **3. Commercial AM Radio Attributable Ownership By Type - Table D(3a)-D(3c)**

### *a. Positional Interest*

- Females held attributable interests due to their positional interests in 67.7 percent of commercial AM radio stations in 2015 and 68.6 percent of stations in 2013.

## Federal Communications Commission

- Males held attributable interests due to their positional interests in 84.8 percent of stations in 2015 and 82.5 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests due to their positional interests in 14.2 percent of stations in 2015 and 8.3 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests due to their positional interest in 96.2 percent of stations in 2015 and 96.8 percent of stations in 2013.
- Racial minorities' attributable interests due to their positional interests ranged from 0.2 percent to 26.2 percent of stations in 2015 and from 0.2 percent to 26.6 percent of stations in 2013.
- Whites held attributable interests due to their positional interests in 96.7 percent of stations in 2015 and 95.8 percent of stations in 2013.

### *b. Single Majority Voting Interest*

- Females were single majority voting interest holders in 13.4 percent of commercial AM radio stations in 2015 and 11.5 percent of stations in 2013.
- Males were single majority voting interest holders in 86.6 percent of stations in 2015 and 88.5 percent of stations in 2013.
- Hispanic/Latino persons were single majority voting interest holders in 7.4 percent of stations in 2015 and 7.4 percent of stations in 2013.
- Non-Hispanic/Latino persons were single majority voting interest holders in 92.6 percent of stations in 2015 and 92.7 percent of stations in 2013.
- Racial minorities were single majority voting interest holders in 9.5 percent of stations in 2015 and 10.1 percent of stations in 2013.
- Whites were single majority voting interest holders in 90.5 percent of stations in 2015 and 89.9 percent of stations in 2013.

## **E. Commercial FM Radio**

### **1. Commercial FM Radio Majority Ownership Interest - Table E(1a)-E(1c)**

#### *a. Gender*

- Females owned 446 (8.1 percent) of 5,492 commercial FM radio stations in 2015 and 383 (6.7 percent) of 5,714 FM radio stations in 2013.
- Males owned 4,044 stations (73.6 percent) in 2015 and 4,226 stations (74.0 percent) in 2013.
- 55 stations (1.0 percent) were jointly female/male owned in 2015 and 143 stations (2.5 percent) were jointly female/male owned in 2013.
- Stations with no majority interest by gender accounted for 947 stations (17.2 percent) in 2015 and 962 stations (16.8 percent) in 2013.

#### *b. Ethnicity*

- Hispanic/Latino persons owned 228 commercial FM stations (4.2 percent) in 2015 and 180 stations (3.2 percent) in 2013.
- Of 228 Hispanic/Latino-owned stations in 2015, 115 stations were in a top-100 Arbitron metro market, 45 stations were in Arbitron metro markets 101-274, and 68 stations were outside all Arbitron metro markets.

## Federal Communications Commission

- Non-Hispanic/Latino persons owned 4,313 stations (78.5 percent) in 2015 and 4,529 stations (79.3 percent) in 2013.
- Stations with no majority interest by ethnicity accounted for 951 stations (17.3 percent) in 2015 and 1,005 stations (17.6 percent) in 2013.

### *c. Race*

- Racial minorities owned 128 commercial FM radio stations (2.3 percent) in 2015 and 169 stations (3.0 percent) in 2013.
- Of the 128 minority owned stations in 2015, 24 stations were in a top 100 Arbitron metro market, 42 stations were in Arbitron metro markets 101-274, and 62 stations were outside of all Arbitron metro markets.
- American Indian or Alaska Natives owned 21 stations (0.4 percent) in 2015 and 23 stations (0.4 percent) in 2013.
- Asians owned 20 stations (0.4 percent) in 2015 and 41 stations (0.7 percent) in 2013.
- Black or African Americans owned 72 stations (1.3 percent) in 2015 and 73 stations (1.3 percent) in 2013.
- Native Hawaiian or Pacific Islanders owned 14 stations (0.3 percent) in 2015 and 26 stations (0.5 percent) in 2013.
- Persons of two or more races owned 1 station (0.0 percent) in 2015 and 6 stations (0.1 percent) in 2013.
- Whites owned 4,444 stations (80.9 percent) in 2015 and 4,570 stations (80.0 percent) in 2013.
- Stations with no majority interest by race accounted for 920 stations (16.8 percent) in 2015 and 975 stations (17.1 percent) in 2013.

## **2. Commercial FM Radio Attributable Ownership Interest - Table E(2a)-E(2c)**

- Females held attributable interests in 63.0 percent of commercial FM radio stations in 2015 and 64.6 percent of stations in 2013.
- Males held attributable interests in 95.1 percent of stations in 2015 and 97.0 percent of stations in 2013.
- Hispanic/Latino persons held attributable interests in 9.9 percent of stations in 2015 and 8.2 percent of stations in 2013.
- Non-Hispanic/Latino persons held attributable interests in 96.2 percent of stations in 2015 and 97.5 percent of stations in 2013.
- Racial minorities' attributable interests in stations ranged from 0.7 percent to 15.2 percent of stations in 2015 and from 0.8 percent of stations to 19.3 percent of stations in 2013.
- Whites had attributable interests in 98.0 percent of stations in 2015 and 97.8 percent of stations in 2013.

## **3. Commercial FM Radio Attributable Ownership Type - Table E(3a)-E(3c)**

### *a. Positional Interest*

- Females held attributable interests due to their positional interest in 71.2 percent of commercial FM radio stations in 2015 and 71.2 percent of stations in 2013.

## Federal Communications Commission

- Males held attributable interests due to their positional interests in 86.9 percent of stations in 2015 and 87.5 percent of stations in 2013.
- Hispanics/Latinos held attributable interests due to their positional interests in 14.2 percent of stations in 2015 and 10.2 percent of stations in 2013.
- Non-Hispanics/Latinos held attributable interests due to their positional interests in 97.8 percent of stations in 2015 and 98.2 percent of stations in 2013.
- Racial minorities' attributable interests due to their positional interests ranged from 0.4 percent to 27.8 percent of stations in 2015 and from 0.3 percent of stations to 32.6 percent of stations in 2013.
- Whites held attributable interests due to their positional interests in 98.3 percent of stations in 2015 and 97.8 percent of stations in 2013.

### *b. Single Majority Voting Interest*

- Females were single majority voting interest holders in 14.1 percent of commercial FM radio stations in 2015 and 11.7 percent of stations in 2013.
- Males were single majority voting interest holders in 85.9 percent of stations in 2015 and 88.3 percent of stations in 2013.
- Hispanic/Latino persons were single majority voting interest holders in 7.6 percent of stations in 2015 and 5.6 percent of stations in 2013.
- Non-Hispanic/Latino persons were single majority voting interest holders in 92.5 percent of stations in 2015 and 94.4 percent of stations in 2013.
- Racial minorities were single majority voting interest holders in 4.1 percent of stations in 2015 and 5.3 percent of stations in 2013.
- Whites were single majority voting interest holders in 95.9 percent of stations in 2015 and 94.7 percent of stations in 2013.

Federal Communications Commission

APPENDIX A  
Glossary of Terms

*Attributable ownership interest:* An interest that is attributable pursuant to Note 2 of Section 73.3555 of the Commission's rules (47 CFR § 73.3555, Note 2).

*Combination:* This category covers situations in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same ethnicity or race both separately exceed 50 percent (e.g., a station where a wife and husband, both Hispanic/Latino, each hold 100 percent as joint tenants(s)).

*Controlling interest:* A single individual holds a majority voting interest (i.e., more than 50 percent) in the licensee or its controlling parent or parents.

*Ethnicity Definition (Hispanic or Latino):* A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish Culture or origin, regardless of race.

*Insufficient data to identify:* The computer code was unable to process the data submitted to the Commission in these stations' biennial filings.

*Joint Female/Male:* A situation in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) both separately exceed 50 percent (e.g., a station where a wife and husband each own 100 percent of the station as joint tenants).

*Majority interest:* A group of individuals of the same gender, ethnicity, or race, collectively hold an attributable voting interest in the licensee that exceeds 50 percent.

*No majority interest:* No individual or group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50 percent. The computer code may have included some stations in this category if the stations' biennial filings contained data errors or inaccuracies that caused the computer code to be unable to properly process the data submitted to the Commission.

*Not filed:* This category includes situations where (a) the station's licensee did not file a biennial 323 form (some of these licensees filed a 323-E form instead), or (b) the Commission's Consolidated Database System (CDBS) was unable to accept the licensee's filing as a result of the licensee failing to file a fee, or (c) the licensee's filing could not be processed by the computer code.

## Federal Communications Commission

*Positional Interest:* Positional interest data reported herein include all the categories listed on Form 323. These categories are as follows: Officer, Director, General Partner, Limited Partner, LC/LLC/PLLC Member, Owner, Stockholder, Attributable Creditor, Attributable Investor, Other (please specify). Stations with at least one person with a positional interest are reported in column one in Table 3 if the person has less than a 5 percent voting interest.

### *Race Definitions:*

- *American Indian or Alaska Native:* A person having origins in any of the original peoples of North America and South America including Central America, and who maintains tribal affiliation or community attachment.
- *Asian:* A person having origins in any of the original peoples of the Far East, Southeast Asia, or Indian Subcontinent including Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- *Black or African American:* A person having origins in any of the black racial groups of Africa.
- *Native Hawaiian or Other Pacific Islander:* A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- *Two or more races:* A person having origins in two or more races.
- *White:* A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

## APPENDIX B

### Explanatory Notes

#### Description of the Tables

**Tables 1(a)(b)(c)** identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender hold, either individually or collectively, a majority of the voting interests in the licensee, that is, their voting interests exceed 50 percent. A station identified as having no majority interest does not necessarily mean that no particular classification of persons has a majority interest in the station, only that this cannot be determined from the reported Form 323 data as submitted. Each station is uniquely identified in this table.

**Tables 2(a)(b)(c)** identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable interest. Each station may appear in one or more categories in this table.

**Tables 3(a)(b)(c)** identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable interest by virtue of a positional interest; or at least one person, by race, ethnicity, or gender, with a voting interest of at least a five percent, 10 percent, or 25 percent. Each station may appear in one or more of these categories. Table 3 also identifies the number of stations that have a single majority interest holder (one person holds more than 50 percent of the voting interests).

#### Manual adjustments to the data for:

##### Full power commercial television tables

1. Data for 2015 based on CDBS as of March 29, 2017.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 397 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; 15 stations were reassigned to White, non-Hispanic/Latino female; one station was reassigned to White, Hispanic/Latino male; five stations were reassigned to Black/African American, non-Hispanic/Latino male; and 437 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. The computer code was unable to account for ownership combinations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same race together exceed 50 percent. In such cases the stations are identified as no majority interest in Table 1. Two stations that met these criteria were reassigned to Black/African American combination, non-Hispanic/Latino combination, and joint male/female in Table 1.

##### Class A television tables

1. Data for 2015 based on CDBS as of March 31, 2017.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this

## Federal Communications Commission

report. In all, 63 stations in Table 1 were reassigned to White, non-Hispanic/Latino male, and 39 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

### Low power television tables

1. Data for 2015 based on CDBS as of April 10, 2017.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined a number of filings, many of which fell into these categories, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In some cases, this involved moving certain stations that were missing one or more reports into the proper ownership categories based on staff analysis of the ownership of commonly-owned stations. In all, 168 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; one station was reassigned to White, non-Hispanic/Latino female; and 83 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. The computer code was unable to account for ownership combinations where the aggregate votes of neither gender exceed 50 percent, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same race together exceed 50 percent. In such cases the stations are identified as no majority interest in Table 1. One station that met these criteria was reassigned to Black/African American combination, non-Hispanic/Latino combination, and joint male/female in Table 1.
4. The response rate in 2015 for LPTV stations is 69 percent, up from 66 percent in 2013 and 60 percent in 2011. It appears that, because many LPTV stations, like television translators, merely rebroadcast the signal of another TV station, they are under the mistaken impression that they, like television translators, are exempt from the Form 323 biennial filing requirement. We remind licensees that the Form 323 filing requirement applies to stations based on regulatory classification. Accordingly, stations classified as LPTV stations must submit biennial ownership reports regardless of whether or not they originate programming.

### Commercial AM radio station tables

1. Data for 2015 based on CDBS as of March 21, 2017.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations' filings defaulted to "Insufficient data to identify" or "No majority interest" (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 86 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; five stations were reassigned to White, non-Hispanic/Latino female; and 28 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
3. Our CDBS data provides us with a single total for all licensed AM stations that includes both commercial and noncommercial, educational stations. A number of AM radio stations (approximately 203) are licensed as noncommercial, educational stations. Because these stations are required to file a Form 323-E ownership report rather than a Form 323, we have excluded these 203 stations from our AM

## Federal Communications Commission

station totals for “not filed” and “all licensed” stations in the 2015 tables so these figures more closely reflect only those commercial AM stations that fall into these categories.

### Commercial FM radio station tables

1. Data for 2015 based on CDBS as of March 21, 2017.
2. The computer code was unable to process a number of biennial submissions due to filing errors. These stations’ filings defaulted to “Insufficient data to identify” or “No majority interest” (NMI) categories in most instances, depending on the type of filing errors. Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 236 stations in Table 1 were reassigned to White, non-Hispanic/Latino male; seven stations were reassigned to White, non-Hispanic/Latino female; two stations were reassigned to White, Hispanic/Latino male; and 42 stations were reassigned to NMI. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
